AIM of the project

Rare diseases affect a small number of people compared to the general population, but there are six to seven thousand rare diseases that have been discovered, and new diseases are regularly described in medical literature.

Not all rare diseases are genetic, but often are serious, chronic, and progressive. For many rare diseases, signs may be observed at birth or in childhood. However, over 50% of rare diseases appear during adulthood.

The field of rare diseases suffers from a deficit of medical and scientific knowledge. For a long time, doctors, researchers, and policy makers were unaware of rare diseases and until very recently there was no real research or public health policy concerning issues related to the field.

The aim of this course is to focus attention and increase knowledge on **Alpha Mannosidosis**. Due to the lack of sufficient scientific and medical knowledge, many patients are not diagnosed, and their disease remains unidentified. The course will help doctors in disease diagnosis, in addressing the best therapies today available and in the management of affected patients

Scientific Program

Friday, December 16th, 2022

Pathogenesis and clinical characteristics of Alpha mannosidosis

Duration: 60 minutes

Time: Abu Dhabi: 9pm

Rome: 6pm

Moderator

Dr. Franco Antonio Folino

Topics:

- Alpha mannosidosis: early signs and symptoms leading to diagnosis
Dr. Martin Magner
- Differential diagnosis with MPS
Dr. Martin Magner
- Early genetic\family screening and counselling in alpha mannosidosis
Dr. Martin Magner
- Management of AM Patient: Established and emerging therapies
Dr. Martin Magner
- Clinical case and Monitoring of patients over time
Dr. Talal Alanzi

Faculty

Dr. Martin Magner

Head of the department of paediatrics of the first faculty of medicine of the Charles University and the general university hospital, Prague, Czech Republic

Dr. Talal Alanzi

Consultant in Clinical Genetics
Prince Sultan Military Medical City, Riyadh

Dr. Franco Antonio Folino

University of Padua, Italy

Accreditation

The ALPHA MANNOSIDOSIS in Middle East, Padova, Italy, 16/12/2022-16/12/2022 has been accredited by the European Accreditation Council for Continuing Medical Education (EACCME®) with 1 European CME credits (ECMEC®s). Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity.

Through an agreement between the Union Européenne des Médecins Spécialistes and the American Medical Association, physicians may convert EACCME® credits to an equivalent number of AMA PRA Category 1 Credits™. Information on the process to convert EACCME® credit to AMA credit can be found at www.ama-assn.org/education/earn-credit-participation-international-activities.

Live educational activities, occurring outside of Canada, recognised by the UEMS-EACCME® for ECMEC®s are deemed to be Accredited Group Learning Activities (Section 1) as defined by the Maintenance of Certification Program of the Royal College of Physicians and Surgeons of Canada.

This event is supported in the form of an
unrestricted educational grant by:
