AIM of the project

Rare diseases affect a small number of people compared to the general population, but there are six to seven thousand rare diseases that have been discovered, and new diseases are regularly described in medical literature.

Not all rare diseases are genetic, but often are serious, chronic, and progressive. For many rare diseases, signs may be observed at birth or in childhood. However, over 50% of rare diseases appear during adulthood.

The field of rare diseases suffers from a deficit of medical and scientific knowledge. For a long time, doctors, researchers, and policy makers were unaware of rare diseases and until very recently there was no real research or public health policy concerning issues related to the field.

The aim of this course is to focus attention and increase knowledge on Nephropathic cystinosis. Due to the lack of sufficient scientific and medical knowledge, many patients are not diagnosed, and their disease remains unidentified. The course will help doctors in disease diagnosis, in addressing the best therapies today available and in the management of affected patients.

Scientific Program

Wednesday December 21st, 2022

SESSION on Nephropathic cystinosis: molecular basis and pathogenesis, clinical presentation and diagnosis

Time: Abu Dhabi: 9pm
Rome: 6pm

Moderator

Dr. Franco Antonio Folino

Topics:

- Nephropathic cystinosis: molecular basis and pathogenesis: Clinical presentation and diagnosis
Prof. Francesco Emma
- Nephropathic cystinosis: the transition from the paediatric to the adult phase
Dr. Khalid Alhasan
- Treatment of cystinosis and multidisciplinary approach
Prof. Francesco Emma
- Emerging therapies in cystinosis
Prof. Francesco Emma

Faculty

Prof. Francesco Emma

Paediatric Hospital Bambino Gesù

Dr. Franco Antonio Folino

University of Padua, Italy

Dr. Khalid Alhasan

Chairman, Department of Pediatric Consultant
Pediatric Nephrologist King Khalid University
Hospital King Saud University Riyadh, KSA

Accreditation

The Nephropathic Cystinosis in Middle East, Padova, Italy, 21/12/2022 -21/12/2022 has been accredited by the European Accreditation Council for Continuing Medical Education (EACCME®) with 1 European CME credits (ECMEC®s). Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity.

Through an agreement between the Union Européenne des Médecins Spécialistes and the American Medical Association, physicians may convert EACCME® credits to an equivalent number of AMA PRA Category 1 Credits™. Information on the process to convert EACCME® credit to AMA credit can be found at www.ama-assn.org/education/earn-credit-participation-international-activities.

Live educational activities, occurring outside of Canada, recognised by the UEMS-EACCME® for ECMEC®s are deemed to be Accredited Group Learning Activities (Section 1) as defined by the Maintenance of Certification Program of the Royal College of Physicians and Surgeons of Canada.

This event is supported in the form of an
unrestricted educational grant by:
